The interest payments are computed separately for the Checking Section and the Savings Section taking in consideration the balances in each section respectively. The applicable rate will depend on the balance in each separate sections⁶. The interest rate and annual percentage yield (APY) applicable to the account is variable at FirstBank’s discretion, based on market conditions and may change without prior notice to customers. Deposits will start accruing interest from the day the funds are deposited into your account. Minimum daily balance to accrue interest is \$0.01.

Method for calculating the balance: The daily balance method is used to calculate the interest in your account. The daily balance method applies a daily periodic interest rate to the balance deposited in your account. The daily periodic rate is 1/365 of the interest rate applicable to your account, except in a leap year, the periodic rate will be 1/366.

Capitalization and interest accreditation: Interest accrues daily, is capitalized and credited to your account monthly on the last day of your account cycle. If you close your account before your interest is credited, you will not receive the accrued interest.

If you have \$50,000 in the Savings Section, the Bank will apply the rate corresponding to that balance only in the Savings Section.

⁷The Bank, upon client's request will add the Certificate of Deposit (CD)/Individual Retirement Account (IRA) to the balance of both sections of the account to determine if the monthly service charge applies. The system will not do it automatically. Only up to a maximum of fifteen (15) Certificates of Deposit (CD)/Individual Retirement Account (IRA) can be affiliated to a deposit account. Each Certificate of Deposit (CD)/Individual Retirement Account (IRA) can be affiliated to only one deposit account (Bonus, Preferred or Platinum).
