Deposits will start accruing interest from the day the funds are deposited into your account. Minimum daily balance to accrue interest is \$0.01.

**Method for calculating the balance:** The daily balance method is used to calculate the interest in your account. The daily balance method applies a daily periodic interest rate to the balance deposited in your account. The daily periodic rate is 1/365 of the interest rate applicable to your account, except in a leap year, the periodic rate will be 1/366.

**Capitalization and interest accreditation:** Interest accrues daily, is capitalized and credited to your account monthly on the last day of your account cycle. If you close your account before your interest is credited, you will not receive the accrued interest.
