The interest payments are computed separately for the Checking Section and the Savings Section, taking into consideration the balances in each section respectively. The applicable rate will depend on the balance available in each separate section⁶. The interest rate and annual percentage yield (APY) applicable to the account is variable, at FirstBank's discretion, based on market conditions, and may change without prior notice to customers. Deposits will start accruing interest from the day the funds are deposited into your account. Minimum daily balance to accrue interest is \$0.01.

Method for calculating the balance: We use the daily balance method to calculate the interest in your account. The daily balance method applies a daily periodic interest rate to the balance deposited in your account. The daily periodic rate is 1/365 of the interest rate applicable to your account, except in a leap year, when the periodic rate will be 1/366.

Capitalization and interest accreditation: Interest accrues daily, is capitalized and is credited to your account monthly on the last day of your account cycle. If you close your account before your interest is credited, you will not receive the accrued interest.

Account Usage and Service Fees		
Service	Fee	Description of the fee
Monthly service fee	\$150.00	Monthly fee if the average balance during the cycle is less than \$250,000.00. The balance of your Certificates of Deposit (CD) and Individual Retirement Account (IRA) with FirstBank will be added to the balance of both sections of your account to determine if the monthly service fee will be applied. ⁷
Transaction fee in checking and savings sections	\$0.00	Unlimited transactions.
Dormant account	\$10.00	Monthly fee if the account does not reflect any transactional activity initiated by the customer for a period of 12 months.
Account cancellation	\$15.00	Fee for closing the account during the first year.

Overdraft Fees

An overdraft occurs when the account does not have enough funds (Insufficient or Unavailable funds) to cover a transaction. The Bank may charge a fee to the account when paying a transaction when the account does not have the required funds. The fee will increase the overdraft amount.

How to avoid overdrafts in your checking account:
